

AMIR HAMID
OPHTHALMIC CONSULTANT

Cataract & Refractive Surgery

— Experience natural vision with one of
UK's leading ophthalmic surgeons

Mr. Amir Hamid is a highly experienced refractive surgeon, having performed over 8000 cataract and laser refractive surgeries and routinely performs up to 60 operations per week. He was appointed as a Consultant Ophthalmic Surgeon in 2011 with a special interest in cataract surgery, corneal transplantation and the correction of presbyopia. He now practices solely in the independent sector in London and Guildford, Surrey.

In 2012 he received the Certification in Laser Refractive Surgery by the Royal College of Ophthalmologists (CertLRS). He is exceptionally skilled in performing SMILE, Presbyond, LASIK and LASEK laser vision correction procedures as well as the use of the most advanced Multifocal intraocular lenses. Additionally, he is certified in the use of the Artisan Iris Clip lenses and the Staar Visian ICL, in order to serve patients unsuitable for laser vision correction.

Improving patient outcomes is fundamental to his practice and thus, Mr. Hamid is involved in the evaluation of new intraocular lenses prior to market launch, teaching Surgeons how to perform laser vision correction and refractive lens exchange or refractive cataract surgery. As a Key Opinion Leader in Vision Correction he is regularly invited to speak and teach at National and International Vision Correction Conferences.

In addition he is a highly acclaimed clinical investigator, always at the forefront of new refractive treatments and technologies.

He regularly presents his published scientific articles and papers at the Cataract and Surgery Conferences in the UK, Europe and US and is a manuscript reviewer for the British Medical Journal.

REVIEWS

What people are saying on

"Friendly, personable and knowledgeable. Mr Hamid was recommended to me by a previous happy customer and I'll happily be recommending him to other people. I wish more healthcare professionals were as good as him!"

"I couldn't be more happy with my multi focal lens replacements. The service from start to finish was first class. It is a great feeling knowing I now have excellent vision which will last for life."

Both Professional and caring. Kept well informed every step of the way. So pleased with my eyesight. Wonderful not to be wearing glasses after 40 years.

"Excellent experience throughout, explained every step of the way couldn't have asked for more, very successful outcome better than expected."

"Mr Hamid is friendly and approachable. He is happy to answer all my questions and strives to get the best results possible for the individual."

"Unexpectedly enjoyable experience. I was nervous before procedure but Mr Hamid settled my nerves and carried out the op superbly."
